PROFESSIONAL SUMMARY

Backend PHP Developer with 3+ years of experience designing and developing scalable web applications, REST APIs, and real-time backend systems using Core PHP, Laravel, CodeIgniter, MySQL, JavaScript, and Linux. Experienced in API architecture, WebSocket-based applications, database optimization, payment gateway integration, and secure authentication systems. Passionate about building high-performance, maintainable software that solves real business problems.

TECHNICAL SKILLS

- **Languages:** PHP, JavaScript, HTML5, CSS3, SQL
- **Frameworks:** Laravel, CodeIgniter 3
- **Backend:** REST APIs, WebSockets (Ratchet), Firebase Cloud Messaging (FCM), MVC Architecture
- **Database:** MySQL, Database Design, Query Optimization
- **Tools:** Git, Composer, Postman, Linux, Apache
- **Concepts:** Authentication, Session Management, System Design, Performance Optimization, API Integration

PROFESSIONAL EXPERIENCE

PHP Developer 72 Dragons (Remote)	Mar 2024 – Jul 2026
• Developed and maintained scalable backend applications using Core PHP, CodeIgniter, and MySQL. • Designed and implemented secure REST APIs for web platforms. • Built a real-time chat system using Ratchet WebSockets with message delivery, read receipts, reactions, typing indicators, and file sharing. • Integrated Firebase Cloud Messaging (FCM) for real-time push notifications. • Implemented PhonePe and Stripe payment gateway integration for secure online transactions. • Designed visitor analytics architecture including session tracking, page views, visitor identification, and event logging. • Optimized SQL queries and backend performance for production systems. • Implemented secure authentication, session management, and role-based access control. • Collaborated with international teams to deliver scalable solutions for digital platforms. • Technologies: PHP, CodeIgniter, MySQL, JavaScript, Ratchet WebSocket, Firebase, Linux, REST APIs	
Junior Software Developer Manasvi Tech Solutions Pvt. Ltd.	Jan 2023 – Mar 2024
• Developed and maintained dynamic web applications using PHP and MySQL. • Built responsive websites and business applications using CodeIgniter. • Developed REST APIs for frontend integration. • Fixed production issues and optimized application performance. • Participated in database design and feature implementation. • Collaborated with senior developers throughout the software development lifecycle.	

KEY PROJECTS

Real-Time Chat System

- Developed a WebSocket-based chat application supporting real-time messaging, typing indicators, file sharing, message reactions, delivery status, and read receipts.

Visitor Analytics Platform

- Designed and implemented visitor session tracking, event logging, page analytics, and user identification for website analytics.

PhonePe, Stripe Payment Integration

- Integrated PhonePe Payment Gateway with secure authentication and transaction handling.

Article & CMS Platform

- Developed APIs for article submission, approvals, versioning, notifications, and content management.

EDUCATION

Master of Business Administration (MBA) - Information Technology

Bharati Vidyapeeth (Deemed to be University) | Jan 2024 - Apr 2026 | Grade: O (Outstanding)

Specialized in IT Management, Business Strategy, Project Management, and Business Analytics.

Completed a real-client e-commerce project, applying business analysis, project planning, and technology solutions.

Bachelor of Engineering (B.E.) - Computer Engineering

Savitribai Phule Pune University | Jun 2019 - Jun 2022 | CGPA: 8.61 | SGPA: 8.95

Completed internship in Core Java at R3 SYS.

Developed an Android application: Equipment on Rent, Wholesale Fertilizer & Labour Management System.

Diploma - Information Technology

Sandip Polytechnic, Nashik (MSBTE) | Jun 2017 - Jun 2019 | Percentage: 78.36%

Developed an IoT-based project: Voice Control Car.

ADDITIONAL INFORMATION

Languages: English, Hindi, Marathi

Certifications / Training:

- Internship – Core Java (R3 SYS)
- Python for Data Science
- Database Management System Part - 1
- Agile Scrum in Practice
- Database Management System Part - 2

Areas of Interest:

- Backend Engineering
- REST API Development
- WebSocket & Real-Time Systems
- Database Design & SQL Optimization
- System Design & Software Architecture
- Scalable Web Application Development
